Progress with Pride

---

Unlocking the Brilliance in Each of Us

Dear Parent/Carer,

## 2020 Mathematics Faculty Requirements

Students at Wadalba Community School are required to supply their own **scientific calculator** for Mathematics. Scientific calculators are necessary to solve complex calculations and are essential to student's mathematical development.

The Mathematics Faculty recommends that students use a **CASIO fx-82AU plus II** calculator. These calculators may be purchased from the school canteen for \$35, alternatively you can purchase through stores such as Office Works or BigW during back to school sales. If purchasing elsewhere please ensure you are purchasing the same calculator as many others do not offer the same functionality. The **CASIO fx-82AU plus II** is very user friendly and caters for all students from Years 7 to 12.

It is essential that all students supply their own calculator by the beginning of Week 3 Term 1 2020. Students who do not have a calculator may be unable to complete their class work.

Students in Years 7-10 are also required to purchase a **Mathematics Revision & Exam Workbook**, available from the Admin Office for \$16. This will allow students to consolidate learning from the classroom. The Scope and Sequence for each year level, including assessments and relevant homework, is available on the schools website.

Students may choose between a Grid book or an exercise book to take their notes in.

If you have difficulty providing any of the above due to financial reasons, you may be eligible for 'Student Assistance'. Applications can be obtained and submitted via the Admin Office.

Yours faithfully,

Mrs Leanne Hancock  
Head Teacher Mathematics
